PROFESSIONAL SUMMARY

Frontend Developer with 1+ years of experience building responsive and scalable web applications. Skilled in converting Figma designs into high-quality interfaces, optimizing performance, and integrating APIs. Passionate about clean UI, modern design, and smooth user experiences.

WORK EXPERIENCE

Software Engineer – Frontend Developer
Centre for Digital Innovation & Product Development | 2024 – 2025

- Built responsive, production-ready UIs using React.js, Next.js, Tailwind CSS, and reusable components.
- Converted Figma wireframes into functional screens with consistent design systems and UX patterns.
- Delivered dashboards, login flows, sponsor modules, and onboarding for large-scale platforms.
- Implemented secure authentication: token-based login, OTP verification, protected routes, and form validation.
- Integrated REST APIs with efficient data handling, real-time updates, and error handling.
- Optimized performance via code splitting, lazy loading, memoization, and efficient rendering.
- Ensured SEO-friendly structure and cross-device responsive design.
- Collaborated in Agile teams using Git/GitHub, contributing to UI/UX improvements through testing.

SKILLS

Frontend Development: Next.js · React.js · JavaScript · TypeScript · HTML5 · CSS3 · Tailwind CSS · Bootstrap · Responsive UI · Component Architecture · React Hooks · State Management · REST APIs

Performance & Optimization: Code Splitting · Lazy Loading · Memoization · SEO Best Practices · Responsive Images · Rendering Optimization

UI/UX: Design-to-Code Conversion · Figma Collaboration · Wireframe and Prototyping · Layouts (Grid & Flexbox) · Color & Typography · Usability Principles

Tools & Workflow: Git · GitHub · VS Code · Postman · Browser DevTools

Testing & Quality: Debugging · Error Handling · UI & Responsive Testing · Cross-Browser Testing

PROJECTS

Personal Portfolio Website
Website: tamimi-portfolio.vercel.app
Tech: Next.js, TypeScript, Tailwind CSS, Framer Motion

- Built a modern developer portfolio with animations, smooth transitions, and reusable components.
- Ensured consistent theming, fast loading performance, and fully responsive layouts.

Wayanad Rehabilitation Township Portal
Website: wayanadtownship.kerala.gov.in

- Designed & developed the full UI for sponsor, contractor, and admin dashboards.
- Implemented multilingual UI, authentication flows, validations, and donation/payment modules.

KARMASRI – AIS Officers Resource Management System (Confidential Government Project)

- Built secure authentication flows, OTP verification, and role-based UI dashboards.
- Developed modules for Executive Records, Service History, and Officer Profiles with strict validation rules.

SGOU – Academic Management Portal
Website: erp.sgou.ac.in/login-candidate

- Designed and implemented the student dashboard UI with responsive layouts and academic modules.
- Developed interfaces for profiles, courses, semesters, notifications, calendars and exam views.

EDUCATION

Bachelor of Technology – Computer Science & Engineering
APJ Abdul Kalam Technological University, India | 2019 – 2023

CERTIFICATIONS

- Foundations of User Experience (UX) Design – Google
- Python Full Stack Development – JThread IT Training and Consultancy
